

YOUR tax dollars fund animal shelters that are “deplorable” and “inhumane” ...

- Experts confirm that King County Animal Care & Control fails to provide animals with the most basic elements of humane care, such as regular food and water, adequate housing, exercise, and proper medical treatment.
- Animals in King County shelters suffer from alarming rates of disease and high levels of fear and stress. Four in ten do not make it out alive.

... and a failing law enforcement system.

- King County ignores calls for animal control until *after* people have been hurt by free-roaming aggressive dogs, and fails to properly investigate charges of animal neglect and cruelty.

HELP STOP THE SUFFERING NOW
